The NEW WATERLOO 15 GARDEN TRACTOR

A LOW COST LIGHTWEIGHT TRACTOR WITH Plenty of Pulling Power!

IT'S A MIGHTY WORKER!

The new Waterloo "15" Garden Tractor is a slightly smaller edition of the famous Waterloo "30". It's built on the same basis of 100 years experience in making better farm equipment and machinery. The same top-quality materials are used throughout... the same rugged construction... and many of the exclusive features of the 3 H.P. "30" are incorporated in the Waterloo "15". The 1½ H.P. air-cooled gasoline engine gives it plenty of power... at the lowest operating cost of any tractor on the market.
